

Sentinel Hub services

PACKAGE	PRICE	LIMITS					NOTES
		<i>Processing units per month</i>	<i>Processing units per minute</i>	<i>Requests per month</i>	<i>Requests per minute</i>		
30-day free trial	/	30 000	300	30 000	300	No commercial activity is permitted	
Subscription + pay-as-you-go options	Monthly fee	<i>Monthly processing units covered within basic price</i>	<i>Processing units per minute</i>	<i>Requests per month</i>	<i>Requests per minute</i>		
Exploration - non-commercial/research	30 EUR/month 300 EUR/year	30 000	300	100 000	300	No commercial activity is permitted. Additional requests can be purchased at 1.5 EUR per 1000 processing units (there is no automatic surcharge)	
Basic	100 EUR/month 999 EUR/year	70 000	500	700 000	500	Additional requests can be purchased at 1.5 EUR per 1000 processing units (there is no automatic surcharge)	
Enterprise S	500 EUR/month 5 000 EUR/year	400 000	1 000	N/A	600	Additional requests can be purchased at 1.5 EUR per 1000 processing units (there is no automatic surcharge)	

	year						
Enterprise L	1 000 EUR/month 10 000 EUR/year		1 million	2 000	N/A	1 200	Additional requests can be purchased at 1.5 EUR per 1000 processing units (there is no automatic surcharge)
Large scale processing	<p>Use Sentinel Hub Batch Processing</p> <p>Batch Processing can process three times the volume of data for the same amount of processing units, compared to On-the-fly Sentinel Hub.</p>						
Pre-paid processing units	<i>Price per 1000 processing units</i>		<i>Processing units per month</i>	<i>Processing units per minute</i>	<i>Requests per month</i>	<i>Requests per minute</i>	
40 000 – 400 000 processing units	2.50 EUR		/	1 000	N/A	300	Pre-paid processing units expire after 24 months
400 001 processing units and more	1.50 EUR		/	1 000	N/A	300	Pre-paid processing units expire after 24 months

Notes:

- All prices are in EUR without VAT.
- Definition of the processing unit is described here:
 - https://docs.sentinel-hub.com/api/latest/#/API/processing_unit
- Processing units' bucket is updated on a regular basis rather than at the monthly/minute limit. E.g. with 30.000 processing units per month one additional processing unit will be added every 86.4 seconds. With the exception of "reserved capacity" and "pre-paid" packages unspent processing units do not accumulate.

For easier understanding some typical conversions between processing unit and km²:

Mission	Product	Resolution [m]	km ² for one PU	EUR per 1 km ²
Sentinel-2	True color	10	26.2	0.00006
	NDVI	10	39.3	0.00004
	All 13 bands	10	6.0	0.00025
Sentinel-1	VV gamma0 ortho	20	157.3	0.00001
Sentinel-3 OCI	True color	300	23 593.0	0.00000007
	OTCI	300	35 389.4	0.00000004
Landsat-8	True color - pansharpened	15	44.2	0.00003
	NDVI	30	59.0	0.00003

PlanetScope

Notes:

- Sentinel Hub subscription is precondition for purchasing commercial imagery as it is essential for consumption of purchased data.

Commercial conditions:

- A minimum package of 100 hectares is available for a price of 344 EUR (VAT excluded). Each additional hectare is 3.44€.
- With “hectares under management”, you get access to full archive over the AOI, around 5 years of data.
- Minimum AOI size is 1 hectare.
- Consumption of the package up to 12 months after purchase. PlanetScope source data can be used within the Euro Data Cube for unlimited period (additional data hosting costs apply), based on user's interests.
- Commercial and non-commercial use based on all Euro Data Cube services allowed. Detailed EULA is available [here](#). Full explanation of the pricing can be found here: <https://forum.sentinel-hub.com/t/planetscope-new-pricing-model-hectares->

Airbus SPOT

Notes:

- Sentinel Hub subscription is precondition for purchasing commercial imagery as it is essential for consumption of purchased data.

Commercial conditions:

- Pay-per-use - 3.8 EUR / sq. km
- Includes 12 months of data storage on Euro Data Cube
- Minimum request size 2.5 sq. km
- Archive data access.
- Price includes 12 months of data storage on Euro Data Cube. After 12 months additional costs apply.
- Commercial and non-commercial use based on all Euro Data Cube services allowed. Detailed EULA is available [here](#).

Airbus Pleiades

Notes:

- Sentinel Hub subscription is precondition for purchasing commercial imagery as it is essential for consumption of purchased data.

Commercial conditions:

- Pay-per-use - 10 EUR / sq. km
- Includes 12 months of data storage on Euro Data Cube
- Minimum request size 0.25 sq. km
- Archive data access.
- Price includes 12 months of data storage on Euro Data Cube. After 12 months additional costs apply.
- Commercial and non-commercial use based on all Euro Data Cube services allowed. Detailed EULA is available [here](#).

European Space Imaging/MAXAR Worldview

Notes:

- Sentinel Hub subscription is precondition for purchasing commercial imagery as it is essential for consumption of purchased data.

Commercial conditions:

- Pay-per-use - 16.50 EUR / sq. km
- Includes 12 months of data storage on Euro Data Cube
- Minimum request size 5 sq. km
- Price includes 12 months of data storage on Euro Data Cube. After 12 months additional costs apply.
- Commercial and non-commercial use based on all Euro Data Cube services allowed. Detailed EULA is available [here](#).
