

## EODC Cloud

The EODC framework offers management and organization of collaborative software development processes for establishing fully automatic end-to-end EO data processing chains, competence in processing large volumes of EO data, up-to-date technical infrastructure, and tailor-made, user-friendly solutions to exploit the added-value of satellite-derived information for the civil society.

## Product Description

The EODC Cloud is more than just CPUs and RAM. Besides compute and storage resources, co-located with our multi petabyte data repository, our team of EO experts connects knowledge and IT competence and will assist with EO data needs.

### What you get

#### Compute Resources

Your EODC Cloud includes virtual CPUs, RAM and Hybrid-SSD storage to build up your data service. You can launch ready-to-use Virtual Machines, choosing from several Linux based operating systems. You have full control of your Virtual Machines with the OpenStack Dashboard.

Each Cloud Bundle level comes with a minimum resource configuration. Please note that extra options are additional resources on top of the minimum configuration. To see what resources are provided at each level, please see the table below.

#### EO Data Access

From your Virtual Machines in the EODC Cloud you have unlimited access to our EO Data Repository, which hosts a global Copernicus Sentinel Long Term Archive and other EO data products.

See which missions we provide below.

#### EO Storage

Our Multi-Petabyte scale EO Storage provides terabytes of storage space for hosting your own data. EO Storage is a network storage that is accessible from all your services in the EODC cloud and allows you to set up collaborative environments across your projects.

All our servers are located in Vienna, Austria. Off-premise backup is available upon request.

#### Individual Support

Our team of EO experts offers recommendations with custom set up and configuration of Virtual Machines, installation of software, backup configuration and more. You get access to our support system and knowledgebase.

Our offer includes **unlimited network traffic** for your data transfer. Fair use policy applies. You may be billed for any costs incurred for the transfer of any excessive volumes of data, above our generous fair use quotas.

**Your benefits at a glance:**

- Flexible Virtual Machine setup and with the OpenStack Dashboard
- Unlimited high-speed internal networks, generous fair-usage for external access
- Multi-petabyte EO Data Repository at your fingertips
- Scalable compute and storage solutions
- Support by EO Experts

## Bundle sizes

EODC Cloud Pro	16 vCPU 56 GB RAM 560 GB Hybrid-SSD storage 1,5 TB EO Storage
EODC Cloud Advanced	8 vCPU 24 GB RAM 240 GB Hybrid-SSD storage 0,5 TB EO Storage
EODC Cloud Basic	2 vCPU 4 GB RAM 40 GB Hybrid-SSD storage 0,2 TB EO Storage

## Pricing

All prices excl. VAT

### Bundle Price

	1 month	12 months
<b>EODC Cloud Pro</b>	€ 1.000,00	€ 10.000,00
<b>EODC Cloud Advanced</b>	€ 600,00	€ 6.000,00
<b>EODC Cloud Basic</b>	€ 360	€ 3.600,00

### Extra resources

Subscription:	Price			applicable for
	1 month	12 months		
<b>vCPU</b>	per month	per month	total	
2	€ 16,19	€ 13,49	€ 161,87	all bundles
8	€ 61,51	€ 51,26	€ 615,09	Advanced & Pro
16	€ 116,54	€ 97,12	€ 1.165,44	Pro
64	€ 466,18	€ 388,48	€ 4.661,76	Pro
<b>RAM</b>	per month	per month	total	
4 GB	€ 19,04	€ 15,87	€ 190,40	all bundles
24 GB	€ 108,53	€ 90,44	€ 1.085,28	Advanced & Pro
56 GB	€ 239,90	€ 199,92	€ 2.399,04	Pro
128 GB	€ 548,35	€ 456,96	€ 5.483,52	Pro
<b>Hybrid-SSD</b>	per month	per month	total	
40 GB	€ 2,67	€ 2,22	€ 26,67	all bundles
240 GB	€ 15,20	€ 12,67	€ 152,00	Advanced & Pro
560 GB	€ 33,60	€ 28,00	€ 336,00	Pro
2024 GB	€ 121,44	€ 101,20	€ 1.214,40	Pro
<b>EO Storage</b>	per month	per month	total	
0,2 TB	€ 4,93	€ 4,10	€ 49,25	all bundles
0,5 TB	€ 11,70	€ 9,75	€ 116,98	Advanced & Pro
1,5 TB	€ 33,25	€ 27,71	€ 332,46	Pro
10 TB	221,64	€ 184,70	€ 2.216,40	Pro

## EODC Toolbox [to be added on a later stage]

Additional tools are available with each Cloud Bundle configuration.

### Sen2Agri

Sen2-Agri is a fully fletched system that generates products for agricultural monitoring based on Sentinel-2 and Landsat-8 datasets.

*Price: €190 per month or €160 per month for 12 month subscription*

### EODC Desktop

The EODC Desktop provides a lightweight, graphical desktop environment enriched with software for your EO data needs.

*Features:*

- Lightweight and easy to use XFCE Desktop Environment.
- Access to the EO Data Repository and your private EO Storage.
- QGIS with eomQS plugin pre-installed.

*Price: €95 (one time fee)*
