

Price list

Description of the price list: One frame from Sentinel-1 covers an area of 240x200 km. Neighboring orbits have a certain overlap. The prices refer to a bundle of all generic map products ESVI, SWI and Color Composite.

Data deliveries refers to how often should we process the data. We always process 10 successive acquisitions for each delivery. The customer receives all data from one processing step and can stagger the data deliveries freely. However, in order to obtain a consistent time series, the intervals between two deliveries must not exceed 8 successive acquisitions.

The customer will still get all datasets but in winter he may decide to receive the data not every 6/12 days, but only every 24 days. Or he may decide to get the data on monthly basis.

Euro	Data deliveries							
	1	2	5	10	15	20	30	60
1	440	900	2.200	4.300	6.300	8.300	12.200	22.900
2	710	1.400	3.500	6.800	10.100	13.200	19.100	34.400
4	1.200	2.300	5.700	11.300	16.600	21.700	31.400	57.000
6	1.500	3.000	7.400	14.600	21.500	28.100	40.900	74.600
8	1.800	3.500	8.800	17.300	25.500	33.600	48.800	89.700
10	2.000	4.100	9.900	19.600	28.900	38.000	55.400	102.400
12	2.400	4.700	11.700	23.000	34.000	44.700	65.100	120.200
15	2.700	5.400	13.400	26.500	39.200	51.500	75.200	139.500
20	3.300	6.600	16.300	32.100	47.600	62.600	91.400	170.500
25	4.100	8.000	19.900	39.200	58.000	76.300	111.500	207.500
30	4.500	8.900	22.200	43.700	64.900	85.400	125.000	234.000
40	5.500	10.900	26.900	53.300	79.000	104.200	152.900	287.600
50	6.200	12.400	30.800	60.800	90.400	119.300	175.400	332.100
60	6.800	13.500	33.600	66.500	98.900	130.800	192.700	367.100
