

Plan Name	CPU	Memory	Outbound data transfer	Storage	Price (monthly)
Standard Plan - single user instance - guaranteed resources of 2 CPUs/8GB Memory - includes 30GB storage - allows 6GB outbound data transfer (0.6TB overall network traffic) - supports headless notebook execution	2	8GB	6GB	30GB	99€
Standard L Plan - single user instance - guaranteed resources of 6 CPUs/24GB Memory - includes 90GB storage - allows 18GB outbound data transfer (1.8TB overall network traffic) - supports headless notebook execution	6	24GB	18GB	90GB	299€
Standard XL Plan - single user instance - guaranteed resources of 12 CPUs/48GB Memory - includes 180GB storage - allows 36GB outbound data transfer (3.6TB overall network traffic) - supports headless notebook execution	12	48GB	36GB	180GB	599€
GPU Plan - single user instance - guaranteed resources of 4 CPUs/16GB Memory - dedicated Tesla GPU with 16GB Memory - includes 180GB storage - allows 36GB outbound data transfer (3.6TB overall network traffic) - supports headless notebook execution	4+1	16+16GB	36GB	180GB	599€
Standard Multi User Plan - instance for up to 10 (parallel) users with individual private workspace - overall guaranteed resources of 12 CPUs/48GB Memory - includes 30GB storage per user (300GB pooled storage in total) - includes 100GB shared object storage - allows 36GB outbound data transfer (3.6TB overall network traffic)	12	48GB	36GB	300+100GB	899€

Option Name	Network traffic	Storage	Price (monthly)
Additional Object Storage - 100GB - store huge amounts of data in a cost effective way - mounted as additional volume to your workspace environment - fair use policy on bandwidth and requests - external access via s3 protocol only with custom agreement		100GB	8€
Additional Bandwidth - 60 GB outbound data transfer to the internet - 6 TB overall (transfer-in, transfer-out, intra-traffic)	6TB (60GB out)		99€
Custom Base Image - leverage EDC functionality with your preferred language runtime and libraries - regularly receive updates and security patches - one-time setup fee based on onboarding effort			49€
Additional Block Storage - 100GB - store volatile data like caches or intermediate results - mounted as additional volume to your workspace environment - 3-5x times higher throughput than file storage		100GB	15€
Additional File Storage (SSD backed) - 100GB - POSIX-compliant shared file storage - automatically replicated to guarantee data durability		100GB	12€

Data Products

Product name	List price
EOxCloudless Sentinel-2 2019 8-bits	from 400 €
EOxCloudless Sentinel-2 2019 16-bits	from 800 €
EOxCloudless Sentinel-2 2018 8-bits	from 250 €
EOxCloudless Sentinel-2 2018 16-bits	from 500 €
EOxCloudless Custom	to requirements

EOxMaps

Product name	List price
EOxMaps API under SLA	250,- € per month for 10 million tile requests
EOxMaps Additional tile requests	100,- € per month per 5 million additional tile requests
EOxMaps Customization	Individual based on effort
