

Atos Price List for NoR Platform Tier

Version : 1.0

Reference: Atos-9000819336

2.1.5 Interactive development services (optional)

The interactive development services are based on Mundi's Jupyter Notebook. See <https://jupyterhub.mundiwebservices.com/hub/login>

Jupyter Notebook has support for over 40 programming languages, Mundi offers the 2 following kernel languages: Python and R. Mundi Jupyter Notebook is an interactive tool to manipulate and store data on Mundi. This platform helps to easily discover Mundi's services and enables an efficient access to data.

The Mundi Jupyter Notebook has pre-installed tools to enhance user experience. Code examples are available in a shared environment as well as the possibility to install complementary tools.

Mundi offers dedicated Jupyter Notebook instances, ranging from 2 to 8 cpu and elastic storage, fitted to user's needs. The pricing is based on monthly subscription. Volume discount shall be applied for R&D challenges and Hackatons.

	Power (cpu-ram)	Unit	Price (euros)
Interactive Development Services	2-2	Month	280,00
	4-4	Month	410,00
	8-8	Month	820,00
	Complementary Storage	100GB/Month	14,00

2.1.6 User Support Services (optional)

Everyday Atos 110,000 people in 73 countries are developing and implementing innovative digital solutions that support the business transformation of clients and address the environmental and social challenges we all face.

Atos can provide IT/IS support all over the world for platform training, algorithm implementation support, and EO products exploitation support. Communication language is usually English, but support can also be offered in German and French. Please see <https://mundiwebservices.com/offer> or <https://atos.net/en/>.

The pricing is based on hours of dedicated support. Volume discount or monthly subscriptions shall be offered for large volumes.

	Service	Unit	Price (euros)
User Support Services	IT Support	Hour	110,00
	IS Support	Hour	110,00
	EO Support	Hour	110,00
