

About T Systems

With around 28,000 employees worldwide and annual revenues of EUR 4.0 billion (2021), T-Systems is one of the leading providers of digital services. The Deutsche Telekom subsidiary is headquartered in Germany and has a presence in Europe as well as in selected core markets and strategic production locations. T-Systems can provide a global production and supply chain to companies operating worldwide.

Open Telekom Cloud

With Open Telekom Cloud, Telekom provides an Infrastructure-as-a-Service service based on OpenStack technology.

The Open Telekom Cloud is provided as a public cloud variant.

The infrastructure services of the Open Telekom Cloud are configured via a self-service portal (console) or via programmable interfaces (API).

The Open Telekom Cloud offers a wealth of cloud functions such as virtual machines, data storage, object-oriented and relational databases, and a virtual private cloud. We provide all of this in compliance with the General Data Protection Regulation (GDPR), at enterprise-level, and 100 percent in Europe.
